

# GMADA to provide services through 2,125 Sewa Kendras in state

## TRIBUNE NEWS SERVICE

**MOHALI, AUGUST 24**

To facilitate implementation of the Right to Service Act, 2011, and providing Government to Citizens (G2C) service closer to their homes, GMADA has decided to provide various services through 2,125 Sewa Kendras in the state.

Vini Mahajan, Additional Chief Secretary, Department of Housing and Urban Development, the services, being offered through Sewa Kendras, pertains to revised building plans (residential and commercial), issue of completion/occupation certificate, no-objection certificate/duplicate allotment letter/re-allotment letter, issue of conveyance deed and issue

of no-due certificate.

Prescribed application forms for the aforesaid services would also be made available at the kendras in the state.

GMADA is also contemplating to offer more services through the kendras for the convenience of its consumers/allottees.

Directorate, Government Reforms, Government of Punjab, has established these kendras with complete IT infrastructure, including power backup.

Mahajan added that providing various services through the Sewa Kendras would be replicated in other development authorities such as JDA, GLADA, ADA, PDA and BDA of the state.

## Gmada to take services to doorsteps

TIMES NEWS NETWORK

**Mohali:** To facilitate the implementation of Right to Service Act-2011 and ensuring government to citizens (G2C) service closer to their home, GMADA has decided to provide various services through the 2125 Sewa Kendras at the door steps.

The services being offered through Sewa Kendras pertain to revised building plans (residential and commercial), issue of completion/ occupation certificate, no objection Certificate/ duplicate allotment letter/re-allotment letter, issue of conveyance deed and issue of no due certificate. Prescribed application forms for the aforesaid services will also be made available at Sewa Kendras in the state.

Directorate, Government Reforms, Government of Punjab has established these Sewa Kendras with a complete IT infrastructure including power backup. The decision is expected to save allottees the trouble from travelling long distances to obtain these services and would reduce rush of visitors in GMADA which in turn add to the efficiency of GMADA staff.
