

# DEPARTMENT OF TOWN AND COUNTRY PLANNING PUNJAB

## Notification

Regarding amendment in Population Density Norms and Per Dwelling Unit Size in the Master Plans of the State of Punjab

Dated.....

No.....Whereas Master Plans of 43 towns/ cities have already been notified under Section 70 (5) of The Punjab Regional and Town Planning and Development Act, 1995. The Population Densities for these towns have already been notified vide notification no 139 CTP(Pb) SP-135 (Vol 21) dated 4/03/2014 with the approval of The Punjab Regional and Town Planning and Development Board. While implementing the proposals of these Master Plans, it was brought to the notice of the Government that:-

1. There should be no restriction of number of flats per acre.
2. The family size per dwelling unit should be reduced from 5 persons per dwelling unit to 4.5 persons per dwelling unit.
3. Compounding of population density violations, if any, should be permitted.

These issues were discussed by 'The Punjab Regional and Town Planning and Development Board' in its 35<sup>th</sup> meeting held on 11.05.2018. The Board, after detailed discussions, agreed to the proposal of the department as given below:-

1. The family size per dwelling unit be reduced from 5 persons per dwelling unit to 4.5 persons per dwelling unit
2. Those promoters, who have constructed the buildings with the family size of 5 persons per family, be given the relaxation of 10% in the density norms. Rs.100/- per sq ft shall be charged on the additional covered area, subject to the condition that the applicant shall submit the structure safety , fire safety certificate regarding additional built up area and such building shall fulfill other building norms such as parking, setbacks, minimum distance between two buildings. The relaxation in population density shall not be applicable on new projects in which the family size is determined as 4.5 persons per family
3. There should be no restriction of number of flats per acre.

In the light of the above said decision of the Board, the proposal regarding amendment in Population density norms and per dwelling unit size in the Master Plans of the State of Punjab were published in the newspapers dated 06.07.2018 . 02 objections/suggestions were received within the stipulated period of 30 days.

The objections received were discussed by 'The Punjab Regional and Town Planning and Development Board in its 36th meeting held on 11.10.2018, which approved the amendment in Population density norms and per dwelling unit size in the Master Plans of the State of Punjab as stated above.

In the light of the above said decision of the Board, amendment in Population density norms and per dwelling unit size in the Master Plans of the State of Punjab is hereby notified u/s 70(5) of The Punjab Regional and Town Planning and Development Act, 1995 and Notification no. 139 CTP(Pb) SP-135 (Vol 21) dated 4/03/2014 stands amended to this extent.

It shall come into operation from the date of its notification.  
This issues with the approval of the Government dated 18/10/2018.

Whereas the Government of Punjab is of the opinion that it is necessary in the public interest and for Ease of Doing Business in the state to bring uniformity in Zoning Regulations and Development Controls of all Master Plans in the state of Punjab. These "**Zoning Regulations and Development Controls**" (herein after referred to as "Regulations") shall be applicable on all Master Plans already notified or to be notified under the provisions of "The Punjab Regional and Town Planning and Development Act, 1995" (here in after referred to as "PRTPD Act 1995") in the state of Punjab.

The nature of land use and control of development within each Master Plan shall be regulated through these regulations. In addition to these, the building rules and other notifications/guidelines/circulars issued from time to time by the state government for regulation and control of development shall also be applicable with in master plan areas.

Since the sub-division of land, design and construction of buildings is being controlled through well-established building byelaws / regulations by the concerned authorities, these Zoning Regulations and Development Controls of the Master Plans are seen as the guiding parameters for the authorities to ensure that the development permitted by them is within the framework of Master Plan provisions.

## **1. ZONING REGULATIONS**

### **1.1 SHORT TITLE, SCOPE, EXTENT & COMMENCEMENT**

#### **1 Title**

These Regulations shall be called the "Zoning Regulations and Development controls" for Master plans in the state of Punjab prepared under the provision of PRTPD Act 1995 in the state of Punjab (herein after referred to as "Regulations").

#### **2 Scope of the Regulations**

The scope of these regulations shall be limited to defining Land use zones and the activities permissible in each land use zone depicted in the Proposed Land Use Plan forming part of the Master Plans already notified or to be notified under section 70(5) of "The Punjab Regional and Town Planning and Development Act, 1995"

Other aspects of "development" such as sub-division and layout of the land or intensity of development measured through FAR, ground coverage, parking requirements, building design and construction etc. will be governed by development controls, other acts and guidelines / notifications issued by the Government from time

to time. Competent Authorities under such regulations shall ensure that the developments permitted by them are in conformity with these regulations.

### 3 Jurisdiction

These Regulations shall apply to each master plan already notified or to be notified in the state of Punjab under section 70 (5) of "The Punjab Regional and Town Planning and Development Act, 1995" except Master Plans of SAS Nagar and New Chandigarh.

### 4 Date of Coming into Force

## 2.5 ENVIRONMENTAL CONSIDERATIONS:

- Minimum buffer of 15 meters green belt of broad leaf trees should be provided around the boundary of village *abadi's* falling in the industrial zone of Master Plan. A buffer strip of 15 meters of broad leaf trees shall also be provided between residential areas and red category industries falling in the industrial zone of Master Plan boundaries of which are located within 100m from the boundary of such areas. It is clarified that 15 meter buffer shall be provided by the owner of the project who comes later.
- All residential colonies, commercial establishments like shopping malls, multiplexes, etc. shall maintain a minimum distance of 250 m from the hazardous (Maximum Accident Hazardous or MAH) industries notified by the competent authority. The distance shall be measured from source of pollution/hazard in the industrial premises to the nearest building lines as per zoning plan of the colony/complex. However, for specified type of industry like rice Sheller/sella plants, stone crushers, hot mix plants, brick kilns, etc., standards/norms of distance as prescribed by PPCB or any other concerned agency shall apply.
- Minimum 5 meters wide green strips on each side of minor water bodies / drains shall be maintained on the portion falling within the existing municipal limits and 10 meters on the portion falling outside the existing municipal limits. Other major water bodies like rivers/major canals, etc. shall have minimum 30 meters green strips on each side in the portion falling within as well as outside existing municipal limits. Realignment of water bodies shall be permissible wherever feasible, subject to the certification by the Drainage/Engineering Department to ensure free flow of storm water. After any such realignment, the river mouth, the river bed and the green strip/buffer on either side shall be maintained at least to the minimum prescribed level. In these green strips, golf course, sports and recreational activities shall be permissible, with 2% ground coverage for construction of offices, booths serving snacks/milk booths, library etc.
- Gap of at least 10 meter should be left between the railway boundary and the nearest private buildings, so as to minimize smoke/noise nuisance to the adjacent buildings/sites.

## 2.6 OTHER DEVELOPMENT CONTROLS AND GUIDELINES REQUIRED

- Expansion of Abadis: Contiguous expansion of village abadis falling in the non-residential zones of Master Plan shall be permissible up to a distance of 100 m from

the existing Lal lakir/ phirni of villages to accommodate the natural/contiguous growth of villages. This area shall be exclusively used for allowing houses for the villagers and not for any other purpose such as for the development of colonies, commercial projects by the promoter.

Area under expansion of village abadis falling in non residential zone of Master Plan, shall be governed by prevailing Building rules of the department of Housing and Urban Development or amended from time to time for the purpose of allowing houses for villagers. The Competent authority as notified by the Government will approve the building plan after taking CLU, EDC, LF/ PF and SIF, building plans fees and other applicable charges of the state government. The minimum area requirement shall not apply for these types of residential units.

## **2.7 EXCEPTIONS**

The activities / uses not mentioned in these regulations but found compatible for a particular land use zone shall also be permissible with permission of the Chief Town Planner, Punjab.

- Development / projects approved prior to coming in to force of these regulations shall be deemed to be in compliance with these Regulations.
- The site on which various projects have been approved or whose change of landuse has already been permitted by competent authority/Govt. inform the final notification of the master plan such sites shall be deemed to be adjusted as sanctioned/ permitted.
- In case of land belonging to the Development Authorities/Improvement Trusts/Local Bodies/Semi Government agencies working under government department, its use shall be as determined by such agencies subject to the prior approval of the Department of Housing & Urban Development notwithstanding the provisions of master plan.
- The use of land covered under Optimum Utilization of Vacant Government Land (OUVGL) Scheme/Other Projects of the Centre & State Government shall be as determined by the Government at any appropriate time notwithstanding the provisions of these regulations.
- In the event of conflict in interpretation of data within the study area, the information in the GIS format will be deemed as the accurate version and will prevail.
- In case the area of a project falls partially under no construction zone along a water body, relaxation of maximum up to 5% on the total site area of the project shall be allowed towards calculation of saleable area in lieu of the area falling under the no

construction zone. In case, the area falling under no construction zone is less than 5% of the total area of the project then the relaxation shall be proportionately less.

- The buildings / premises for which the existing (present) land use has been retained as such in the Master Plan may continue to operate without time limit. However, in case the present use of the buildings / premises is discontinued (partially or wholly) these buildings / premises or part thereof may be put to any compatible use (except industry) with the surrounding use zone in the Master Plan provided it fulfills the other development regulations / controls as laid down in the Master Plan or as prescribed by the Govt. /Local Body from time to time.
- In case of Defence Land, the extent of No Construction Zone around such lands shall be as notified by the Central Government from time to time depending upon the nature of the use of the land, irrespective of the fact whether such uses are indicated/not indicated on the Proposed Land use Plan.
- The policies, guidelines / instructions and norms regarding control / regulations of urban development issued from time to time or any amendment in the existing norms, policies, guidelines / instruction, act / rules in this regard shall automatically apply to all master plans. From the date of its notification except master plan(s) as exempted in the policy / instructions if any, and no separate permission of the Punjab Regional and Town Planning Board shall be necessary to implement such policies / instructions etc. in master plans.

## **2.8 RESIDENTIAL DENSITIES**

Residential density in the master plans shall be as per policy notified by the Housing & Urban development department Punjab or amended by the Govt. from time to time.

## **2.9 IMPLEMENTATION OF THESE REGULATIONS AND DEVELOPMENT CONTROLS**

- All authorities competent to grant permission for CLU or layout or sub-division of land or construction of building or development of land in any other form shall ensure that the permitted development is in compliance with these Regulations.
- Land owners desirous of developing their land can obtain permission by applying to the competent authority in writing and giving details of their land along with necessary maps, a list of permissible uses.
- Similarly the land owners proposing development of certain uses on their land can obtain a certificate of "Compliance with Master Plan" from a competent authority.

## **2.10 SAFETY**

### **2.10.1 Fire**

Fire services have to play pivotal role and be fully prepared in protecting people from fire hazards, building collapse, road accidents and other unforeseen emergency etc.

### **2.10.2 Development Controls for Safety/ Fire Facilities**

Development Controls for safety/fire facilities shall be as per NBC of India 2016(mended from time to time)/Building Byelaws of the local body/any other concerned agency or as per State government instructions issued from time to time.

### **2.10.3 Guidelines for locating fire stations & fire fighting facilities in urban areas:**

- Fire station shall be so located that the fire tenders are able to reach any disaster site immediately within minutes.
- Fire station shall be located on corner plots as far possible & main roads with minimum two entries.
- In new layouts, concept of underground pipelines for fire hydrants on periphery, exclusively for firefighting services shall be considered.
- Fire stations are permitted in all land use zone/sectors except in Recreational use zone.
- Necessary provisions for underground/over ground fire fighting measures, water lines, hydrants etc. may be kept wherever provision of fire station is not possible.
- The concerned agencies shall take approval from Fire Department for firefighting measures while laying the service for an area.

## **2.11 TRANSFERABLE DEVELOPMENT RIGHTS**

To facilitate development, it is necessary to accord top priority to the implementation of public utilities and infrastructure (such as Schools, Dispensary/Hospitals, Suvidha centre roads, parks, green belts, etc.), which will in turn encourage urbanisation. However, the respective technical agency or authority will not be able to proceed with its implementation programmes until the ownership of private land affected by these public utilities and infrastructure has been transferred to the state or to the relevant authority(s). Acquisition of private land for this purpose can be carried out through one of the following options:

- Cash compensation can be made to affected land owners whose land is to be acquired.
- A government approved land pooling scheme can be implemented.
- Transferable Development Rights (TDR).

The Department of Housing and urban development or Local Government (as the case

may be) may prepare a comprehensive policy on land pooling scheme and TDR so that the same may be implemented as an alternate tool to land acquisition by cash compensation which is tidy and cumbersome procedure. Detailed policy guidelines on the operation and implementation of TDR scheme shall be as per State government instructions issued from time to time.

## **2.12 DISASTER MANAGEMENT**

According to the Indian Seismic Zone Map, most of Punjab is placed in Seismic Zone III & V which means high damage risk zone. Such natural and manmade disasters neither can be prevented nor predicted. However, with the technological advancement to some extent mechanism can be developed to mitigate the after effects of the disaster. Areas of vulnerability can be identified and necessary measures can be proposed by the concerned agencies. The concerned local bodies should keep updating the building byelaws to safe guard against disasters and ensure effective and impartial enforcement. Following policies and strategies for disaster management are proposed:

1. Disaster Management Plan for the area should be immediately prepared after conducting detailed survey of the area.
2. Local body being the nodal agency for disaster management shall identify vulnerable areas such as areas with high density & poor accessibility in the town and propose suitable measures. Proposed Disaster Management Centres should be established in every zone/sector to deal with disasters, including bio-chemical and nuclear disasters
3. All buildings shall be made structurally safe in order to minimise the damage caused by the natural and manmade disasters, including earthquake, fire, etc. & the building plans should includes structural designs & shall conform to the guidelines & the stipulations made in the building byelaws & the NBC. It should be duty and responsibility of the owner of the building to make the building safe against these disasters.
4. The concerned local body responsible for sanctioning of building plans should have technically well trained staff to scrutinize the building plans.
5. The implementation of approved building design should be ensured at site through site inspections at three stages of construction activity i.e., when the building is at plinth level, door level and roof level.
6. Building byelaws shall incorporate the aspects of Multi Hazard Safety, and Retrofitting.
  - Priority shall be given to public buildings (such as hospitals, educational, institutional, power stations, infrastructure, heritage monuments, lifeline structures and those which

are likely to attract large congregation) for their ability to withstand earthquake of the defined intensity.

- Suitable action should be taken for retrofitting and strengthening of structures identified as vulnerable as per earthquake manuals and National building code. A techno-legal regime has to be adopted for provision Multi Hazard Safety aspects..
7. Educate people, particularly school children, about after effects of disaster
  8. Public awareness through media campaigns and advertisements about emergency procedures and location of emergency shelters etc. should be taken up by local body.
